THE QUESTION OF ARMY COSTS A former Secretary of War made

A former Secretary of War made the statement a few days ago that the tiny American army has for many years cost over half as much as Germany has spent on her mighty and highly disciplined horde.

This is something that has grown up with the assent of politicians of all parties and which all parties should unite to end. There is an urgent call for a higher degree of military preparedness. But taxes for army and navy purposes will come hard if the people believe the money is soing to be wasted in pork and graft.

simplicity. It is made up of black serge on a five-gored model, having an inverted pleat at the center-back and a hip-yoke, below which are good sized pockets. As shown here the skirt requires, for average size, 8½ yards 54-inch material, but if desired the hip-yoke can be omitted, thus effecting a saving of % yard of serge.

If laid carefully on the material when

cutting, mistakes will be avoided and smart lines preserved. Taking the serge as it is originally folded when purchased spread it on the cutting table, and along the lengthwise fold arrange the front gore. To the right of this lay the pocket on a lengthwise thread. The back and side gores are placed nearer the selvso that they rest on a lengthwise thread. The yoke comes last, and this of course, on a fold of the serge, so

that there will be no seam.

If the deep yoke is desired with rounded lower edge the lower edge may be cut off on single small "o" perforations. There are double "oo" perfora-tions to indicate a short yoke.

The lower edge of the skirt is finished with a deep hem and the width is about 3% yards, this being both a fashionable and comfortable width. Pleated skirts appear in bountiful number, and there are some compro-mise models, combining pleats, tucks hip-yokes, which can be recommended to women who want something that follows the prevailing fashion, yet

must be "different." Black serge promises to be exceed-ingly popular this fall. Trimmed with black silk braid it takes on a very rich effect and is always in the best possi-

DO NOT ACCEPT TRAIN CORRESPONDENCE

Dear Miss Libbey :-

I am a girl of 17, your constant reader, seeking advice. While we were coming on the train, a while ago, we met two well known young men, who, were decidedly interesting. One of them asked to be permitted to correspond with me. Is it proper to accept this proposal?

Do not enter into correspondence with one whom you have a slight ac quaintange with and met on the train Your home town has good young people. It would be safe and sensible to be in the company of those whom you have known a long time.
